

Welcome to Our AI Discussion!

Exploring how new technology can bless our daily lives
and support our church community safely.

Live Demo: Let's Ask a Question Together

- We don't have to search through pages of messy internet ads.
- Instead, we just ask a normal, complete question.
- Notice how it gives us a direct, beautifully formatted answer immediately.

'Give me 3 comforting Bible verses about finding peace during stressful times.'

Protecting Ourselves from AI Scams

The Voice Scam

Scammers can now use AI to mimic the realistic voice of your children or grandchildren, pretending there is an urgent emergency.

The Rule of Direct Verification

If anyone calls frantically asking for money, gift cards, or an immediate wire transfer, **HANG UP IMMEDIATELY**. Call that family member back directly on their saved, trusted phone number to verify.

Privacy Boundaries: The 'Public Square' Rule

- AI tools are public spaces, not a private conversation or a secure vault.
- Never type in your financial details, account numbers, or full personal medical histories.
- When asking for prayer ideas or cards, use first names only to protect your friends' and family's privacy!

Your Turn to Practice!

- Please take the printed paper handout home with you today.
- Try speaking or typing just one of the community prompts into your phone tonight before bed.

Let's open up the floor: What questions, thoughts, or concerns do you have?
